OVERVIEW

This Project aims to classify groups of claims to know whether they should be banned or not

PROJECT STATUS

The project is still at its first steps and needs further expectation.

KEY INSIGHTS

- There are missing values and there are also redundant data.
- The data that are actually banned have higher engagement.
- The claim are banned more than the opinions

NEXT STEPS

The data needs to be cleaned and organized in a way to make it more capable of giving better insights
